

FLORIDA WINGED SPRINTS

2009

TIRE RULES

The tire rule is for the left and right rear tires only.

Front tires are your choice.

Rear tires will be Hoosier tires and must be purchased through Steele Performance Parts located at 6501 N Florida Ave. Tampa. Phone number is 813-238-2300 or at the track only. All rear tires must have approved stamp or they will be considered illegal.

Tires can be shipped to you for your convenience. We will only stock a few sets at the track. So if you need tires they are your responsibility to either get them at Steele Performance Parts or please call Tom Sherrill 941-322-2881 for tires at the track. We are not going to stock a large amount of tires at the track. Tire that will be stocked at the track will all be new tires.

As we are trying to keep the cost of racing down for our racers so we offer NEW tires at the best prices possible. We also will let you run the TAKE-OFF tires that come from the TBARA. All take-off tires must be approved and stamped from Steele Performance Parts. Tires from any other source are prohibited.

The first 2 races we will allow you to use your tires that you have so you can run what you already have. The April 4<sup>th</sup> race the tire rule will be in effect. And it will be enforced!
